Dear [Hiring Manager Name],

I am applying for the [Job Title] position at [Company Name]. As a mechanical engineer with [X years] of experience in [specialty such as product design, manufacturing, HVAC, or automotive engineering], I am eager to contribute my technical expertise and innovative problem-solving skills to your team.

In my current role at [Current Company], I have designed and optimized [describe projects or products], utilizing tools such as [SolidWorks, AutoCAD, ANSYS, MATLAB]. A recent highlight was [describe an achievement such as reducing production costs by X%, improving product performance, or leading a cross-functional design team to deliver a project ahead of schedule].

I am particularly interested in [Company Name] because of [specific reason — innovative products, sustainability focus, engineering challenges]. My background in [relevant skills such as FEA, GD&T, lean manufacturing, or thermal analysis] positions me to make an immediate impact on your engineering team.

I look forward to the opportunity to discuss how my skills and experience align with your needs. Thank you for your consideration.

Sincerely,
[Your Name]
